PROFESSIONAL SUMMARY

Computer Science undergraduate and aspiring Full Stack Developer with hands-on experience building responsive web applications, database-backed systems and AI-assisted developer tools. Proficient in JavaScript, React.js, Node.js, Python, Java, C/C++, MongoDB, HTML and CSS. Familiar with REST APIs, Git/GitHub, AI agents, automation workflows and data analysis.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, HTML, CSS

Frontend: React.js, Responsive Web Design, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB, SQL fundamentals

AI & Automation: Gemini API, Generative AI, AI Agents, Prompt Engineering, n8n

Data: Pandas, NumPy, Matplotlib, Excel, Google Sheets

Tools: Git, GitHub, VS Code, Postman, Three.js, CodeMirror

EXPERIENCE

Data Analyst Intern — Bluestock Fintech

2026 | Remote

- Analysed operational and financial datasets using Python, Pandas, NumPy and Matplotlib to identify trends and support data-driven reporting.
- Worked with SQL to analyse orders, revenue and product-level data.
- Built Excel/Google Sheets dashboards and explored NSE/BSE, Nifty/Sensex, IPO and financial-statement concepts.

PR & Outreach Co-Lead — GeeksforGeeks Campus Chapter

2026 | Lendi Institute of Engineering and Technology

- Coordinated technical outreach and communication for student learning initiatives and developer-focused activities.
- Supported awareness and participation for technical resources, workshops and peer-learning programs.

PROJECTS

Jarvis / Mark — Personal AI Desktop Assistant

Technologies: Python, Gemini API, AI Agents, Automation

- Built a modular personal assistant concept combining conversational AI with voice interaction, browser control, desktop automation, file operations, reminders, web search and developer tools.

JatayuNetra — AI Tourist Safety Platform

Technologies: JavaScript, Web APIs, AI

- Designed a responsive safety platform concept for route awareness, emergency signals and future real-time backend/API integration.

AI Debugger — Developer Productivity Tool

Technologies: JavaScript, Node.js, Express.js, CodeMirror, Three.js

- Developed a desktop-style interface for code editing, debugging workflows and AI-assisted developer productivity.

CodeQuizHub — Coding Quiz Platform

Technologies: Java, MongoDB, HTML, CSS, JavaScript

- Designed a database-backed coding quiz platform for interactive programming practice and structured question management.

EDUCATION

B.Tech — Computer Science and Engineering | Lendi Institute of Engineering and Technology, Vizianagaram

2nd Year Undergraduate | Expected Graduation: 2028

Intermediate / Class XII: 963 marks

LANGUAGES & INTERESTS

English, Hindi, Telugu | Cricket, Movies
